PURE WATER PROJECT
LAS VIRGENES-TRIUNFO
Bringing Our Water Full Circle

Week of November 2, 2026

Activity

Construction will continue in phases across the Advanced Water Purification Facility (AWPF) site. Crews will continue to construct underground tanks and other subsurface infrastructure.

Additional activities will include concrete wall construction and preparation for the future underground tank components. Crews will also continue foundation work for the future water treatment building, along with underground electrical, plumbing, and treatment piping installation.

Dates/Times

Construction is anticipated Monday through Friday, from approximately 7 a.m. to 4 p.m.

Traffic Impacts

Most activities will occur within the construction site. Nearby motorists may notice construction vehicles entering and exiting the site. Flaggers may be present to assist with vehicle movements when needed.

Construction is a dynamic process. This information and the project schedule are subject to change due to weather, field conditions, and other factors.

Upcoming Work

> Beginning as early as Monday, November 9, utility work will begin along eastbound Agoura Road and continue for approximately four to six weeks. Once the utility work is complete, crews will restripe eastbound Agoura Road to a single lane configuration to improve site access and community safety.

Motorists should anticipate temporary lane reductions, modified traffic patterns, and possible delays. Access to nearby businesses and residences will generally be maintained.

Contact Us

If you have questions or would like additional details about this work, please contact the Project Outreach Team at (818) 245-4440.
