Bringing Our Water Full Circle

Week of November 9, 2026

Lindero Canyon Road and Agoura Road Intersection Work

> Beginning this week, nighttime pipeline construction will take place in phases at the intersection of Lindero Canyon Road and Agoura Road. Crews will excavate the roadway, replace pipeline, and install underground equipment to strengthen local water infrastructure and improve long-term reliability. This intersection work is anticipated to continue for approximately four to five months.

To safely install the new pipeline at this busy intersection, work will occur during nighttime hours. Performing certain activities overnight helps reduce traffic congestion, maintain access through the area, and allow crews to complete critical work as efficiently as possible.

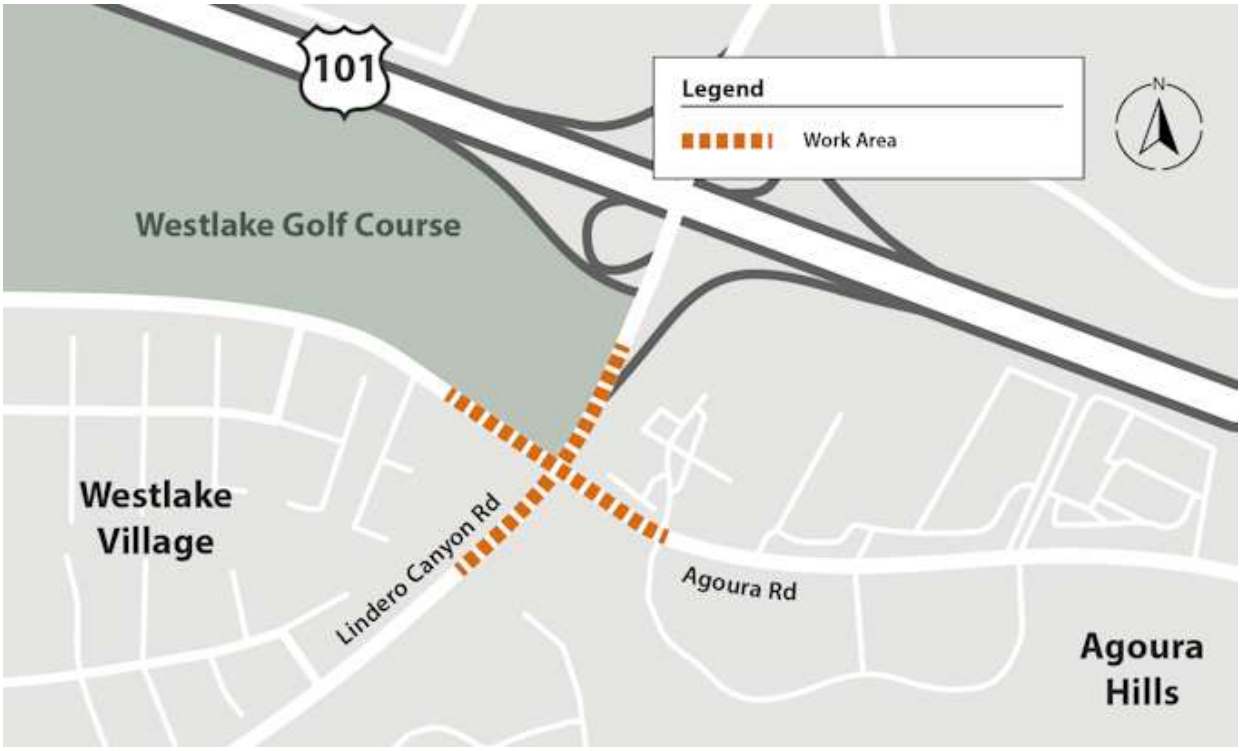
Dates/Times

Nighttime intersection work: Sunday through Thursday, from 7 p.m. to 6 a.m. Crews will work to minimize nighttime noise impacts as much as possible.

Traffic Impacts

Motorists should anticipate temporary lane closures, traffic restrictions, and possible delays near Lindero Canyon Road and Agoura Road. Nighttime work may require detours, including a westbound Agoura Road closure at Lindero Canyon Road and restricted access to westbound Agoura Road from Lindero Canyon Road.

Construction is a dynamic process. This information and the project schedule are subject to change due to weather, field conditions, and other factors.



Agoura Road Pipeline Repair and Installation

Pipeline repair and installation work that began in October will continue in phases along Agoura Road between Lindero Canyon Road and Lakeview Canyon Road.

This week, work will continue west of Greengate Court and continue west along Agoura Road. Construction activity may require a temporary closure of Greengate Court. Residents should use Knightsgate Road as an alternate route.

Activities will include rock excavation, asphalt removal, roadway excavation, pipeline installation and repairs, underground equipment installation, and temporary roadway restoration.

Construction and traffic control are anticipated along this section of Agoura Road over the next four to six months.

Dates/Times

Monday through Friday, from approximately 7 a.m. to 4 p.m.

Traffic Impacts

Motorists should anticipate temporary lane closures, traffic shifts, turn and parking restrictions, and flaggers directing traffic.

Construction is a dynamic process. This information and the project schedule are subject to change due to weather, field conditions, and other factors.

Agoura Road Utility Work

Beginning as early as next week, crews will start utility work along eastbound Agoura Road between Oak Crest Drive and Reyes Adobe Road. Initial activities include installing irrigation crossings and a water line within the public right-of-way. Work will move in phases and will be followed by roadway restriping.

Dates/Times

Daytime utility and restriping activities: 7 a.m. to 3:30 p.m. for approximately four to six weeks.

Traffic Impacts

During daytime utility work, eastbound Agoura Road will be reduced from two lanes to one lane within designated work areas during daytime hours. Two eastbound travel lanes will remain available outside the affected areas. Bicycle access will be modified, and access to nearby businesses and residences will generally be maintained.

Construction is a dynamic process. This information and the project schedule are subject to change due to weather, field conditions, and other factors.
