

PURE WATER PROJECT LAS VIRGENES-TRIUNFO

Bringing Our Water Full Circle

You're Invited

Thursday, August 13, 2026 | 6-8 p.m.

First Neighborhood Construction Information Session

Residents of the First Neighborhood are invited to attend an open-house style information session at the First Neighborhood Community Center to learn more about the Las Virgenes-Triunfo Pure Water Project and construction activities taking place near your community.

This informal, drop-in event allows you to arrive at any time during the session, speak directly with project team members, ask questions, and review project information at your own pace.

This session is designed with residents in mind, and we'll be available to share updates on what is happening nearby and what you can expect, including:

- Information on the project & the future of the Advanced Water Purification Facility
- Benefits of purified recycled water for our region
- Anticipated Westlake Village construction timelines, activities, potential impacts, and mitigation measures
- Project contacts and resources to stay up to date on construction activities

Please RSVP
