

Week of September 28, 2026

Activity

Work continues at the Advanced Water Purification Facility (AWPF) site. Crews are advancing earthwork, concrete, and minor structural work throughout site, including continued rebar installation for the retaining wall, concrete pours for tanks, and initial work for the future facility process building.

Along the soil nail retaining wall above the site, crews are reaching a visible milestone this week: final wall facing will be shot and sculpted, completing the architectural finish on this section of the wall.

Traffic Impacts

Heavy trucks and equipment will continue to enter and exit the site throughout the week. Motorists are urged to drive safely and watch for our crews near the AWPF site.

Construction is a dynamic process. This information and the project schedule are subject to change due to weather, field conditions, and other factors.

Neighboring City Activities

Major pipeline repair and installation work along Agoura Road, Lindero Canyon Road, and Lakeview Canyon Road are scheduled to begin Monday, October 5th, 2026.

Starting Monday, October 5th, crews will begin roadway excavation, asphalt removal, pipeline installation, and underground equipment installation along Agoura Road, between Lindero Canyon Road and Lakeview Canyon Road. This work will include extensive traffic control, staging equipment, and construction activities taking place in the roadway. Work will occur during daytime and nighttime hours over the next 4-6 months.

Construction is a dynamic process. This information and the project schedule are subject to change due to weather, field conditions, and other factors.
